POSTAL REGULATORY COMMISSION

July 19, 2001

VALLEY FALLS RI STATION DOCKET NO. A2011-18
CUMBERLAND RI 02874-9991
[DERRICK WATSON, PETITIONER]
MOTION OF DAVID B. POPKIN

Support of Motion By: David B. Popkin

Dear Commissioners,

I would like to express that I support and completely agree with the motion made by David B. Popkin on July 18, 2011 before the Commission. The document submitted by the USPS on July 15, 2011 titled A2011-18 Administrative Record_redacted.pdf provides further evidence of how the USPS has and still is attempting to hide information from the citizens of Valley Falls. The USPS has not been forth coming with information and has not dealt with our community in a fair and transparent way. This document sans the complete information contained therein is meaningless to us

We urge you to compel the USPS to resubmit this document without redaction and reveal all the information contained therein so that we may be privy to the all the methods and means by which they used to make its determination to close the Valley Falls Post Office.

Respectfully,

Derrick Watson
